

ULTRAUTOSONIC are Manufacturers, Suppliers, and Exporters of High-Volume Probe Sonicator. We designed the High-Volume Probe Sonicator according to applications like Cell Disruption, the Chemical Industry, the Agriculture Industry, the Cosmetic Industry, the Distillery, Emulsification, Extraction, Oil, Food & Beverages, Paint & Coating Industry, and the Pharmacy Industry.

A high-volume probe sonicator is an advanced piece of laboratory equipment used for the efficient and uniform disruption of cells, emulsification, homogenization, and dispersion of materials in a liquid. These devices leverage the power of ultrasonic waves to achieve high-intensity mixing and processing in various industrial, research, and medical applications.

SPECIFICATION

Frequency (Khz)	20
Power (Watt)	1000/1200/1500/1800
Probe / Sonotrode (mm)	φ28, φ32, φ36, φ40 mm
Actual Weight	Approx. 22 Kg
Actual Size (L X W X H)	Approx. Size (484 x 458 x 238) mm
Packaging Type and Size	Wooden Box and Approx. Size (581 x 556 x 336) mm

Operational Requirement

Input Power Supply	AC 230V 50/60Hz, 16Amp
CVT / Stabilizers	If the voltage is unstable then use CVT / Stabilizer to avoid damage

FEATURES

1. Large LCD screen Display, friendly human-machine interface.
2. Maximum 50 Programs of experimental data can be set and stored, safe and convenient.
3. Efficient and durable titanium alloy probe, reliable and accurate.
4. The program has over-temperature/delay/fault protection settings and an alarm system
5. They offer precise control over processing parameters such as amplitude, sonication time, and duty cycle
6. Probe Sonicator model has Auto frequency chasing
7. Variable power output in four stage

ADVANTAGES

1. High-volume probe sonicators can process large volumes of samples quickly and efficiently, making them ideal for industrial and large-scale laboratory applications
2. These devices can handle a wide range of volumes, from small-scale laboratory samples to large industrial batches, providing flexibility and scalability in processing.
3. High-volume probe sonicators are equipped with powerful ultrasonic generators that can deliver high energy, enabling efficient cell disruption, homogenization, and particle size reduction.
4. The high power and efficiency of these sonicators reduce the time required for processing samples compared to traditional methods.
5. Many high-volume probe sonicators come with advanced features like programmable settings, digital controls, and automation capabilities, which enhance precision and ease of use.
6. The probe design allows for deeper penetration into the sample, ensuring thorough mixing and sonication even in high-viscosity solutions.
7. Modern high-volume sonicators are designed with safety features to protect users from exposure to high-frequency sounds and prevent equipment damage.
8. They can be integrated into existing production lines and systems, offering adaptability to various industrial processes.

APPLICATION

- ◆ **CELL DISRUPTION** : Cell Lysis, DNA & RNA Extraction, Nanotechnology, Protein Extraction
- ◆ **CHEMICALS & AGRICULTURE INDUSTRY** : Adhesive, Silicon Oil, Fertilizer Industry, Pesticides Industry, Plant Growth Regulators
- ◆ **COSMETIC INDUSTRY** : Aloe vera Gel, Body Spray, Chocolate Wax, Face Cream, Face Wash, Fragrance Oil, Lip balm, Lipstick, Liquid Foundation, Lotion, Mascara, Nail Polish, Perfume, Soorten Wax, Sunscreen, Waxes, Serum, Body Mist
- ◆ **COSMETIC INDUSTRY** : Aloe vera Gel, Body Spray, Chocolate Wax, Face Cream, Face Wash, Fragrance Oil, Lip balm, Lipstick, Liquid Foundation, Lotion, Mascara, Nail Polish, Perfume, Soorten Wax, Sunscreen, Waxes, Serum, Body Mist
- ◆ **DISTILLERY** : Beer, Rum, Vodka, Wine, Whisky
- ◆ **EMULSIFICATION /EXTRACTION/OIL** : Almond Extract, Blackberry Extract, Rose Extract, Saffron Extract, Herbal Extract Olive Leaf Extract, Emulsification, Spices Emulsification, Icecream Emulsification, Palm Oil, Flower Oil, Mint Oil, Mustard Oil, Castor Oil, Cumin Oil, Turmeric Oil, Spices Oil, Engine Oil
- ◆ **FOOD & BEVERAGES INDUSTRY** : Coffee Powder, Dairy Products, Fruit Juices, Honey, Jam, Masala Soda, Mayonnaise, Peanut butter, Sauces, Soda, Sugar, Vegetable Juices, Whey Powder, Mushroom Extract, Mulberry Extract, Raspberry Extract
- ◆ **PAINTS AND COATINGS INDUSTRY** : Epoxy, Ink, Paint Colour, Pigments, Paint Thinner, Solvents, Additives, Extender
- ◆ **PHARMACY** : Drugs, Medicines, Omega 3, Vitamin D 3
- ◆ **SAMPLE HOMOGENISATION** : Liquid Syrup, Material Science, Pharmaceutical Liquid filling, Pharmaceutical Paste Sample Homogenisation For Plasmid

A. Cell Disruption

Cell Lysis

DNA & RNA Extraction

Nanotechnology

Protein Extraction

B. Chemicals & Agriculture Industry

Adhesive

Silicon Oil

Fertilizer Industry

Pesticides Industry

Pesticides

Plant Growth Regulators

C. Cosmetic Industry

Face Cream

Aloe vera Gel

Body Mist

Body Spray

Lip bam

Fragrance Oil

Soorten Wax

Chocolate Wax

Serum

Perfume

Waxes

Lotion

Mascara

Nail Polish

Sunscreen

Lipstick

Liquid Foundation

Face Wash

D. Distillery

Whisky

Beer

Rum

Vodka

Wine

E. Emulsification /Extraction/Oil

Almond Extract

Blackberry Extract

Rose Extract

Saffron Extract

Herbal Extract

Emulsion

Emulsification

Spices Emulsification

Icecream Emulsification

Flower Oil

Turmeric Oil

Mint Oil

Mustard Oil

Castor Oil

Cumin Oil

Spices Oil

Engine Oil

Olive Leaf Extract

Palm Oil

Mushroom Extract

F. Food & Beverages Industry

Coffee Powder

Dairy Products

Fruit Juices

Honey

Masala Soda

Mayonnaise

Mulberry Extract

Raspberry Extract

Sauce

Tomatto Sauce

Sauces

Sugar

Jam

Peanut butter

Soda

Vegetable Juices

Whey Powder

G. Paints and Coatings Industry

Epoxy

Ink

Paint Colour

Pigments

Paint Thinner

Solvents

Additives

Extender

H. Pharmacy

Drugs

Medicines

Omega 3

Vitamin D 3

I. Sample Homogenisation
