# ULTRAAUTOSONIC LLP

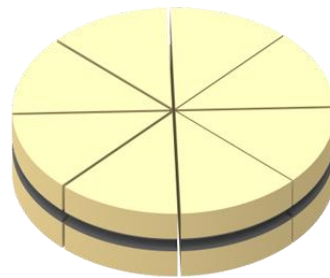

World Class Ultrasonic Machine Manufacturer

## ABOUT US

**ULTRAAUTOSONIC LLP** is a pioneering leader and expert in the design and manufacturing of world-class ultrasonic equipment. We take pride in introducing ourselves as **ULTRAAUTOSONIC LLP**, a global leader in the development, production, and marketing of a wide range of ultrasonic products.

With the integration of cutting-edge automation technology and cost-efficient production methods, we ensure the delivery of high-quality systems at competitive prices. Our commitment to excellence drives us to set new standards in the ultrasonic industry worldwide."

Our core expertise and specialization focus on Food Cutting, Liquid Sonication, Plastic Welding, Fabric Cutting & Sealing, and Poultry Machines applications.

Tailored Probe Sonicators for precise liquid sonication.

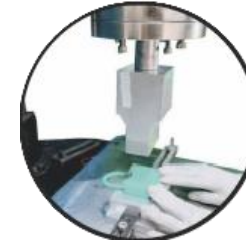

BEFORE

AFTER

Advanced Food Cutting Machines for efficient, hygienic food processing.

High-performance Plastic Welding Machines for strong, seamless bonds.

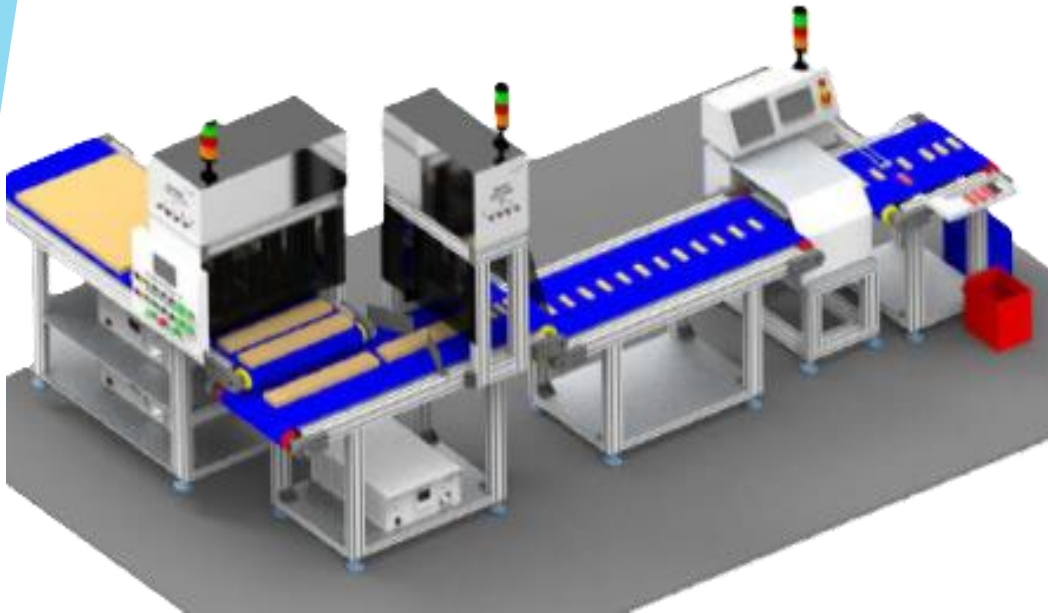

Specialized Fabric Cutting & Sealing Machines for precise textile handling.

Custom-designed Poultry Machines for optimized processing and efficiency.

We primarily serve a diverse range of industries, including Food, Toys, Packaging, Automobiles, Textiles, Chemicals, Pharmaceuticals, Oil, and Poultry.

## Industry Challenges & Market Needs

Maintaining Precision and Quality Hygiene and Food Safety  
Increased Demand for Process Efficiency  
Adaptability to Different Food Types  
Sustainability  
Customization and Flexibility  
Cost-effective prices

## Product & Technology Showcase

Applications Bakery Confections Confectionery Delicacies  
Gourmet Snacks Premium Dairy Provisions Frozen  
Cuisine Delectable Sweetmeats Meat

## Unique Selling Points for Food Cutting Machine

**What makes your machines better than competitors?**

We are ranked as the third-largest food-cutting machine manufacturer globally.

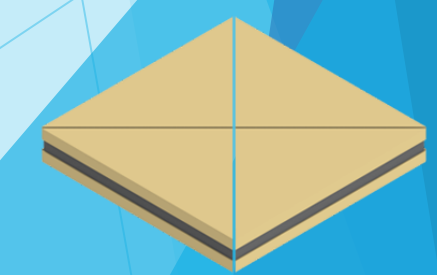

Higher efficiency and precision.

**Cost savings & waste reduction.**

Safety & hygiene compliance.

Customization options for different industries.

We provide comprehensive after-sales service and support.

## Significant Presence in Domestic Markets

Serving leading food processing companies, and food making industries.  
Catering Services. Industries covered: Meat, Seafood, Bakery, Dairy, Food Malls,  
Hotels, and Large-Scale Services.

We have a strong global presence, regularly exporting to countries including the USA, UK, UAE, Sri Lanka, Germany, Singapore, Russia, Canada, Norway, Japan, and more. Domestically, we are present across all regions of India.

# Round Cake Ultrasonic Cutting Machine

Designed specifically for round products, this ultrasonic cutting machine delivers precise, clean slices across various recipes, from frozen to ambient. It is easily programmable and efficiently portions mousse cakes, cheesecakes, pies, quiches, pizzas, and more with customizable divide numbers.

## Key Features:

- ✓ **High-speed cutting** – Processes 180-240 products per hour
- ✓ **User-friendly interface** – Intuitive colour touchscreen
- ✓ **Reliable & durable** – Built for long-term performance
- ✓ **Enhanced efficiency** – Improves portion quality & consistency while reducing labour.

# Slicing Ultrasonic Food Cutting Machine - Single Blade

The slicing machine with ultrasonic cutting technology is designed to slice sticky, frozen, delicate, and challenging products with precision. Perfect for cookies, ice cream roll cakes, pies, cheese, nougat, dough, and more, it handles a wide temperature range from -15°C to ambient.

## Key Features:

- ✓ Fully stainless steel construction with food-grade plastics for hygiene & durability
- ✓ Easy-to-clean- blade & machine for hassle-free maintenance
- ✓ Multiple blade types available for various applications
- ✓ Designed specifically for slicing bar-shaped products
- ✓ Safety protective door for operator security
- ✓ Servo motor-driven ultrasonic blade for precision cutting
- ✓ User-friendly editing programs for seamless operation

World Class Ultrasonic Machine Manufacturer

# Ultrasonic High-Speed Roll Cutting Machine

Designed for precision and efficiency, this Roll food-slicing machine utilizes ultrasonic cutting technology to process sticky, frozen, delicate, and complex products. Perfect for sponge cakes, cheesecakes, brownies, pies, quiches, pizzas, pastries, Cake, Dairy Products, Dough, Pet Food, Sushi Roll, and other bar-shaped items, it operates seamlessly across a temperature range from -15°C to ambient while ensuring clean, high-quality slices.

## Key Features:

- ✓ **High-speed operation** – Cuts 150-600 pieces per hour.
- ✓ **User-friendly interface** – Colour touchscreen for easy control.
- ✓ **Premium construction** – Fully stainless steel body & food-grade plastics for hygiene and durability.
- ✓ **Versatile cutting options** – Supports a wide range of blade types for various applications.
- ✓ **Safety-focused design** – Equipped with a protective door for operator security.
- ✓ **Flexible slicing** – Ideal for bar-shaped and loaf products.

# Ultrasonic Cake Bar Slicer Machine

The Ultrasonic Cake Bar Slicer is designed to cut cake bars and log-type products with customizable slicing thickness for perfect portioning. This automated inline solution features a 300mm ultrasonic blade, delivering clean, precise cuts with every use. Perfect for Slicing Cake ,Dough Marshmallow, Turkish delight, Bar cakes, Long bar candy, Nougat, and Cookies.

## Key Features:

**Durable & Hygienic** – Fully stainless-steel construction with food-grade plastics.

- ✓ **Easy Maintenance** – Blade & machine designed for quick and hassle-free cleaning.
- ✓ **Versatile Cutting Options** – Supports a wide range of blade types for different applications.
- ✓ **Precision Slicing** – Specifically designed for bar-shaped products.
- ✓ **Safety First** – Equipped with a protective door for operator security.
- ✓ **User-Friendly Interface** – Easy-to-use editing programs for seamless operation.

# Ultrasonic Sandwich Cutting Machine

The Ultrasonic Sandwich Cutting Machine is an advanced inline slicer equipped with ultrasonic cutting technology, specially designed for accurate portioning of sandwiches and wraps. Featuring a fixture system to securely hold sandwiches in place, it ensures precise, clean cuts with a high-quality slicing surface every time. Ideal for commercial kitchens, food manufacturers, and delis seeking efficiency and precision in sandwich production.

## Key Features:

- ✓ **Durable & Hygienic** – Fully stainless steel construction with food-grade plastics.
- ✓ **Adjustable Conveyor Speed** – Customizable to match production needs
- ✓ **Versatile Blade Options** – Supports a wide range of blade types for various applications
- ✓ **Pre-Programmed Cutting** – Capable of slicing halves and quarters with precision
- ✓ **Manual Loading System** – Easy product input and output for streamlined operation
- ✓ **Safety-Focused Design** – Equipped with a protective door for operator security

# Automatic Ultrasonic Slicing Machine

The Automatic Ultrasonic Slicing Machine is designed for sticky, delicate, and hard-to-cut products, ensuring clean, precise slices with a high-quality finish. Its ultrasonic blade vibrates at 20 kHz, preventing product buildup and maintaining superior slice integrity. Can be equipped with up to three ultrasonic systems to match production requirements. Supports a single cut width of up to 765mm for greater efficiency. Designed for high-volume food production, this machine delivers efficiency, accuracy, and superior cutting performance.

## Key Features:

- ✓ **Durable & Hygienic** – Fully stainless-steel construction with food-grade plastics
- ✓ **Flexible Power Supply** – Operates on single-phase power for easy integration
- ✓ **Manual Loading System** – Efficient product input and output for streamlined operation
- ✓ **Automated Blade Maintenance** – Self-cleaning and self-drying system for minimal downtime
- ✓ **Versatile Cutting Options** – Supports a wide range of blade types for various applications
- ✓ **Multi-Product Slicing** – Capable of slicing both round and half-sheet products with quick changeover.

# Multifunctional Ultrasonic Food Cutting Machine

The Multifunctional ultrasonic food slicing machine with ultrasonic cutting technology, is built to slice sticky, frozen, delicate, and difficult products, such as sponges cakes, cheesecakes, brownie cakes, pies, quiches, pizzas, pastries, flapjacks, and other products with a wide range of temperature from -15 degree Celsius to ambient temperature. And it allows each slice to have a clean quality cutting surface. The machine could slice two round products at the same time and half-sheet products out of a pan.

## Key Features:

- ✓ **Durable & Hygienic** – Fully stainless steel construction with food-grade plastics
- ✓ **Automated Blade Maintenance** – Self-cleaning and self-drying system for minimal downtime
- ✓ **Versatile Blade Options** – Supports a wide range of blade types for various slicing applications
- ✓ **Multi-Product Slicing** – Efficiently slices both round and half-sheet products with quick changeover
- ✓ **Manual Loading System** – Simple and efficient product input and output
